PROFESSIONAL EXPERIENCE

Aug 2025 to Present
(9 months)

Sales Accountant & Data Analyst at Al-Makarem Veterinary Medicines Trading
United Arab Emirates

- 1- Prepare and provide management with periodic sales reports, dashboards, and performance analyses to support decision-making and business planning.
- 2- Design, develop, and maintain data analytics dashboards (Power BI, Excel) to track sales trends, revenue, product performance, and key KPIs.
- 3- Analyze sales data by territory, product line, and customer segment to identify growth opportunities and underperforming areas.
- 4- Monitor and reconcile daily sales transactions, customer payments, and bank deposits to ensure accurate revenue recognition and accounting records.
- 5- Match sales invoices with bank statements and payment receipts, investigate discrepancies, and coordinate corrections with finance and sales teams.
- 6- Process and issue sales invoices, credit notes, and delivery notes for veterinary medicine sales in compliance with UAE VAT regulations.
- 7- Maintain accurate customer accounts receivable ledgers, follow up on outstanding collections, and send payment reminders to clients.
- 8- Coordinate with the sales team and warehouse to manage supply orders, monitor stock levels, and ensure timely delivery of products to veterinary clinics and pharmacies.
- 9- Support monthly and year-end financial closing by preparing sales reconciliation reports, variance analysis, and supporting audit documentation.
- 10- Track and report sales targets versus actual performance, prepare forecasts, and assist management in setting realistic sales and inventory budgets.

Jan 2023 to Aug 2025
(2 years and 7 months)

Sales Accountant & Data Analyst at Saleh Al Suhaibani Office for Accounting
Egypt

- 1- Prepare and provide management with periodic sales reports, performance dashboards, and variance analyses to support decision-making.
- 2- Design, develop, and maintain Power BI reports and interactive dashboards, updating data monthly to track sales trends, revenue, and KPIs.
- 3- Analyze selling statistics and historical data to create and optimize production schedules for products, ensuring alignment with demand forecasts.
- 4- Monitor production outputs, track waste and losses, and report discrepancies or efficiency opportunities to operations and management.
- 5- Review and reconcile monthly sales data across all channels, verifying accuracy and consistency with accounting records.
- 6- Match and reconcile sales transactions with bank statements and payment receipts to ensure complete and accurate revenue recognition.
- 7- Manage supply orders for restaurants and client outlets, coordinating with vendors and ensuring timely delivery of materials and products.
- 8- Issue and process sales invoices, delivery notes, and credit notes in compliance with VAT regulations and company invoicing procedures.
- 9- Follow up on customer accounts receivable, track outstanding collections, send payment reminders, and coordinate with the collections team.
- 10- Maintain accurate sales and inventory records, support audits, and ensure data integrity across ERP, Excel, and BI systems.

Achievements:

A-Café Khalih 'Aziz (Az Bakery) Project:

- 1- Developed an interactive Power BI dashboard for "Café Khalih 'Aziz (Az Bakery)" to monitor daily cash sales, product sales, and cost tracking.
- 2- Designed a multi-sheet dashboard with dynamic date filters to compare sales performance across different periods and identify peak hours and best-selling items.
- 3- Created dedicated sheets for detailed sales breakdowns by product, category, and transaction level, enabling accurate revenue analysis per menu item.
- 4- Built a cost-tracking sheet to monitor direct and indirect costs and track supplier expenses, helping the owner control margins and reduce unnecessary spending.
- 5- Delivered a user-friendly reporting solution that improved management decision-making by transforming raw sales and cost data into clear visual dashboards and KPIs.

B-Café Ouia Project:

- 1- Developed an interactive Power BI dashboard for "Café Ouia" to monitor daily cash sales, product sales, and cost tracking.
- 2- Designed a multi-filter dashboard with dynamic date and category filters to analyze sales trends and product performance in real time.
- 3- Created a detailed sales sheet showing total sales, product-level sales, and category-level sales, enabling quick identification of top-selling items.
- 4- Built a cost sheet to track direct and indirect costs, helping the owner improve cost control and profitability by highlighting high-expense areas.
- 5- Delivered a user-friendly reporting system that turned raw transaction data into clear visual dashboards, supporting faster and more accurate management decisions.

Nov 2019 to Dec 2022
(3 years and 1 month)

Salesman at Hedeya Store
Egypt

- 1- Handle daily sales transactions, process payments (cash, card, and digital wallets), and issue invoices and receipts to customers.
- 2- Assist customers in product selection, provide detailed information on features, pricing, and promotions, and offer personalized recommendations.
- 3- Arrange and maintain attractive product displays and merchandising layouts to maximize visibility and drive sales.
- 4- Monitor product pricing, ensure correct price tags and shelf labels, and update promotional offers as directed by management.
- 5- Maintain accurate sales records, daily cash reconciliation, and transaction logs, and report discrepancies to the supervisor.
- 6- Deliver excellent customer service by addressing inquiries, resolving complaints, and ensuring customer satisfaction before and after purchase.
- 7- Monitor stock levels on the sales floor, coordinate with the warehouse for replenishment, and inform management of low or out-of-stock items.
- 8- Keep the store clean, organized, and safe, following visual merchandising and hygiene standards at all times.
- 9- Achieve individual and team sales targets through proactive customer engagement and upselling or cross-selling techniques.
- 10- Participate in inventory counts, assist in receiving and checking new stock deliveries, and ensure proper storage and labeling.

Apr 2018 to Oct 2019
(1 year and 6 months)

ATM specialist at Amanco Company
Egypt

- 1- Reload ATM machines with cash at bank branches and off-site locations, ensuring correct denominations and required cash volumes.
- 2- Perform accurate reconciliation of loaded cash against system records and daily cash-in-transit reports, and report any discrepancies.
- 3- Conduct routine inspections and preventive maintenance for ATMs to ensure availability, reliability, and smooth operation.
- 4- Respond to ATM faults, jams, and technical failures, perform troubleshooting, and coordinate with technical teams or vendors when needed.
- 5- Verify and balance ATM transaction logs, cash inventory, and end-of-day reports to support accurate financial closing.
- 6- Ensure strict compliance with security and cash-handling procedures during loading, collection, and transportation of cash.
- 7- Maintain accurate records of ATM operations, including cash replenishment, faults, services, and downtime.

- 8- Coordinate with bank branches, security teams, and cash-in-transit providers to schedule and execute ATM cash reloads efficiently.
- 9- Report suspicious or abnormal activity around ATMs to management and security, and assist in incident investigations if required.
- 10- Support ATM network monitoring by communicating issues quickly and assisting in testing new software or hardware updates.
